Policy for MS & PhD Students entering the water division with Non-engineering or science BS Degrees

The CEE Department encourages all students to pass the Fundamentals of Engineering (FE) exam as the first step towards professional licensure. Entering graduate students who have a BS degree that is not engineering or a related science must either:

1. Pass the FE Exam within three semesters of admittance, OR

2. Make up undergraduate course work as needed. Taking the FE Exam is still strongly recommended once coursework is completed.

**Required classes:**
- Linear Algebra and Differential Equations, MATH2250.
- Engineering Hydraulics, CEE3500 and CEE3510.
- Hydrology, CEE3430.
